## Sugar.

NEW YORK, October 25.—Cuban Centrifugal, 96 degrees, \$3.594. The imports of sugar, coffee and rice at San Francisco from Hawaii, for the month of September and the first nine months of the year were as follows: Sugar, for September, 5,351,579 lbs.; January 1 to September 30, 241,544,576 lbs. Coffee, for September, 1500 lbs.; January 1 to September 30, 13,566 lbs. Rice, for September, 986,900 lbs.; January 1 to September 30, 7,016,400 lbs.

## Columbian Exposition Dedication.

The dedication ceremonies of the Columbian Exposition were held on October 25th and were magnificent. The parade was ten miles long and it is estimated that 1,200,000 people witnessed the pageant. The military ball in the evening was attended by 10,000 people, but the great event was the dedication of the building for Manufactures and Liberal Arts, which covers thirty acres, and which during the ceremonies contained 90,000 people seated and 75,000 standing,—the largest gathering under one roof in the history of the world. Addresses were made by Vice-President Morton, Chauncey M. Depew, Secretary of State Foster, Chief Justice Fuller, Henry Watterson and others. Bishop Fowler of California was chaplain. It is stated that 500,000 people visited the city to witness the ceremonies.

## Whaley, the Tourist.

The Examiner has published a statement to the effect that W. A. Whaley has duped all his associates in the smuggling business, and has fled to Yokohama. The sum he is said to have made away with is about \$75,000, which shows, if true, that there is no honor among smugglers or thieves. Whaley, according to the Examiner report, claimed to have boundless influence with certain high officials in the islands, but he did not go so far as to name them. He claimed that a Chinaman in Honolulu made over \$1,000,000 while he was in the business. The story that the Examiner tells of Whaley and his doings are remarkably interesting, and the career of that noted freebooter is not made meritorious by the fact that while he was living in the lap of luxury in Honolulu, his mother was and is in want at Arcata, Cal.

## The Samoan Situation.

A long, sarcastic letter from Robert Louis Stevenson, novelist, on the anomalous position of the Chief Justice of Samoa appeared in the London Times of October 17. The writer concludes as follows: "I trust this is the last time I shall trouble you with these two-penny concerns; but until some step is taken by the Three Powers I shall continue to report our scandals as they arise. Either what I write is false and I should be chastised as a calumniator, or it is true and these officials are unfit for their position."

A cable dispatch from Berlin, dated the 21st, said: The Vossische Zeitung confirms the reports that disquiet prevails in Samoa, and says Germany is convinced that the Samoan convention was a great mistake. Great Britain, the United States and Germany all agreed to be present. The situation is insupportable and the convention must be amended. Pending this, the paper recommends the immediate construction of a cable to Samoa, to enable the governments to communicate with their consuls without delay.

## American News.

After a long and weary struggle the life of Mrs. Harrison passed away on the morning of October 24th. Her ailment was consumption and her death was peaceful, consciousness remaining to the last. A dispatch from Washington announces that the government will protect American interests in the Gilbert Islands. The United States, however, declines to assume a protectorate.

At the Columbus celebration in Los Angeles, California, a premature explosion of fireworks killed four people and seriously wounded several more.

The long distance telephone has made its greatest triumph, a working line now being in successful operation between New York and Chicago, a distance of nearly a thousand miles. The ticking of a watch and a whispered conversation were easily and plainly heard. A musical concert was also enjoyed at that distance.

The Mormons of Idaho have been disfranchised under the law requiring them to make a test oath that they are not Mormons.

The lowest quotations for wheat since St. Louis became a leading

market, were recorded on Oct. 22d, at that city. The price was 66c. per bushel and the drop was due to a flood of wheat thrown on the market.

The Carnegie steel company have notified the Government that they are now in a position to fulfill their contracts for armor promptly. Since the strike they have been unable to do so.

The Chilean bark Augusta was fired upon and seized by the U. S. revenue cutter Wolcott, Oct. 17th, in Puget Sound harbor, for attempting to leave port without clearance papers.

## Foreign News.

The German Government is having great difficulty in putting its army bill through. Von Caprivi said the measure is working a Franco-Prussian war scare.

A band of kidnappers, who sent young girls to slavery in Constantinople, has been discovered in Austrian Galicia. It is said that over sixty girls have been made away with.

On the 22d, a fire destroyed the warehouses of the Hamburg-American Packet Company at Hamburg. Total loss to docks, warehouses, etc., \$80,000 marks.

Recent floods in Sardinia have destroyed over 200 people. The marriage of Princess Marie of Edinburgh and the Crown Prince Ferdinand of Roumania will be celebrated at Sigmaringen, Germany, in the near future. It is stated that the present King of Roumania will soon abdicate in favor of his son.

The London Times has at last admitted that there is some good in America. On the 22d instant, on "Columbus Day," the "Thunderer" said: "We are not sure that Mr. Depew is quite just in his historical review. We have no wish to depreciate the value and importance of the many services the United States has rendered the old world and ourselves. Not the least thing among them is the spectacle given of a material prosperity greater than was ever before known, and the energy and resolution which have done so much to make the powers of nature subservient to man, and which never, perhaps, displayed themselves on so stupendous a scale as in the yet unfinished preparations for the Columbus celebration. It would be idle to say that there are other countries that could do the same if they tried. The fact remains that the United States has done what has never been done elsewhere, and has proved to the world that wonders can be executed by the industrial enterprise and skill which is animated by patriotism and the resolve to lead in everything."

There have been tremendous floods on the Yellow River, China, recently. Over a million people are threatened with famine in consequence. The overflowed district is 150 miles in length.

A great scandal is expected in Paris at the revelations of the Panama Canal trials, which are set for the near future.

## Sporting.

The Olympic Club of New Orleans has arranged the following fights for Mardi-Gras week: Corbett and Mitchell, heavyweights; Hall and Fitzsimmons, at catch weights (both men are middleweight); McAuliffe and Burke, lightweights. Corbett is traveling with his company of actors, and Mitchell is serving a two months' term in an English workhouse for knocking an old defenseless man down.

The half mile triplet bicycle record was reduced to 59 seconds at Chicago on October 21st by Bunker, Merrill and Winship.

The National Club of London has offered a purse of \$20,000 for a fight between Corbett and Jackson. Corbett prefers the Mitchell match. George Hosmer and Jake Gaudaur defeated Hanlan and O'Connor in a double-scull race at Orilla, Ont., October 15th. Hanlan did miserably, and his racing days are over.

Robert Bonner will soon send Sunol against her record of 2:084. He has had a bicycle sulky with large wheels made for the occasion. Stamboul trotted a mile at Stockton in 2:104 on the 22d, and will soon be driven for the world's stallion record.

## SAFE CRACKERS

made their unwell-comed presence felt last Sunday morning. Their victim was an inoffensive little Safe, down on Queen street. The Safe, demolished and ruined, shows that "beauty is only skin deep" even in Safes. It was not a Hall's.

May this be the first and last act of a nefarious gang. But it behooves prudent business men to place their valuable property beyond reach of the safe-cracker. No successful attempt to "crack" a Hall's Burglar Proof Safe is yet on record. They have often tried, but as often failed.

The U. S. Government appreciates the class of work our Company turns out, when it awards the contract for the S. F. Mint Vault to us, although our price is more and the time to construct longer than our competitors.

Honest Safe making pays always. You are going to own a Hall's Safe some day. Why not get it now?

HARPING ON ONE STRING.

Is apt to wear it out, even if the tune doesn't wear out before. You can harp on the same string and the same tune, too, for that matter, if the subject happens to be our \$3 Shoe, all the year round, and it'll always be as fresh as a June blossom and as new in December as it was in January. No matter how long you harp, the music can have but one theme—the excellence of our \$3 Shoe. These Shoes are footwear, in the proper sense of the term, and not because they wear the foot, instead of the foot wearing them. Wear your Shoes not your feet, and to do that, buy our \$3 Shoe.

## YOU ARE JUDGE!

TO BE SURE, THERE ARE ALWAYS "SALES" OF SOME KIND before the Public, but how to tell the true from the false. THAT IS THE QUESTION!

"By their deeds ye shall know them," and when a reputable House has been established at the same quarters for the last FOURTEEN YEARS, keeping equal step with the growth of the City, by these facts MUST YOU JUDGE!

It makes all these things easier to get. It don't require any great amount of figuring to see that it will pay to buy now not only for the present needs, but with an eye far into the future.
